

SIPSAW – School Improvement Plan for Student Achievement and Wellness – Numeracy

Goal:

As measured by our focus students, all students will move at least one phase along the continuum in addition/subtraction (kinder and primary) and multiplication/division (junior).

Plan:

- *Teachers will engage in daily “splat” activities, encouraging students to move along the continuum of numeracy.*
- *Teachers will post examples and samples to encourage students to notice and name the math*
- *Teachers will use guided math groups at least twice a week to target lagging skills*
- *Teachers will participate in Primary and Junior math sessions*
- *Teachers will explore and use the new Mathology resource in Kinder and Primary*
- *Teachers will purposely plan to elicit student thinking to use in assessment*

Reflection/ Year in Review: to Post June 2020
